San Jacinto College District
FTIC Graduation Rate Report Overview

College-wide

San Jacinto College
College-wide FTIC Cohort Graduation Rates

Methodology:
1. First-Time-in-College (FTIC) count is unduplicated and includes only degree-seeking students (i.e. those whose declared intention was: ‘Earn an Associates Degree 2year’, ‘Earn a Certificate Less than 2years’, ‘Earn Credits for Transfer’, or ‘Did Not Respond’)
2. FTIC cohort data do not include dual credit or flex II (i.e. census term only).
4. FTIC students could have graduated from any SJCD campus.
5. These graduation rates will not match the graduation rates posted on the Texas High Education Coordinating Board’s (THECB) Accountability System. The THECB has access to data from other Texas institutions of higher education, and they can track our FTIC students through to graduation from any Texas school for which they collect a CBM009. The graduation rates shown here only reflect FTIC students who graduated from San Jacinto College.
